Ref. no. CAB/HRD/2020/452

Date: 9/06/2020

The Valuable Members.
All Bhutan Contractors.

Subject: Training for the Construction Project Management Software.

Dear Sir/Madam,

As you all know we have been using MB or **measurement book** to measure sites and do the payments of actual work done by contractor in the construction for a long time. And it has immensely helped both the parties in maintaining proper records or accounts at the time of project executions.

But now with the change in time our government is moving further step ahead with an implement of Construction Project Management Software in place of MB or Measurement Book from July 2020. Once the software is in placed the government will no longer use MB or measurement book and we all should use the software.

So keeping in mind the importance of above software, Construction Association of Bhutan in collaboration with the Ministry of Works and Human Settlements will be providing a "Construction Project Management Software Training" for the interested contractors and company engineers at any time soon. The date and venue of the training will be informed through email after receiving registrations.

Therefore, we request all our members to take this opportunity and register with us at: 02-327830 or email us: cab.org.bt@gmail.com.

Sincerely,

General Secretary
Construction Association of Bhutan.
